

Maleen Ashinshana

Full Stack Developer

About Me

I'm a dedicated and passionate full-stack software engineer, with a solid foundation in both front-end and back-end technologies. I find my joy in every aspect of the development process, whether it's creating intuitive user interfaces that enhance the user experience or designing scalable and efficient server-side logic.

Skills

programming languages

- Java
- Java EE
- Java Script
- Type Script
- SQL

Databases

- My SQL
- MongoDB

Mockup(UI/UX)

- Figma

Projects

● Tea Factory Management System

- It consists of two parts, front end and back end, here the **front end side is developed by using the java script library called react and tailwind CSS** and the **back end side is developed by using node.js**.
- Front End-<https://github.com/Maleen-Ashinshana/Website-of-the-tea-factory.git>
- Back End-<https://github.com/Maleen-Ashinshana/Website-of-the-tea-factory.git>

● Travel Manage App

- There is a front end side and a back end side. The front end is **created using html, css, java script, jquery ajax and bootstrap**. **Spring Boot is used to create the back end side**. In addition, the front end And the back end is designed under **microservice architecture**. **MySQL and mongoDB databases are used for the back end side**.

<https://docs.google.com/document/d/1X1RnNJ-EKDcXhf6pnWZ48RYnVSCm1OyFniKKvyjjGFE/edit?usp=sharing>

● Portfolio

- This is a **single page website** created using **html, css, java script and various css animation**.
- GitHub Link-<https://github.com/Maleen-Ashinshana/PortFolio.git>
- Live Link-<https://github.com/Maleen-Ashinshana/PortFolio.git>

● Web POS System

- This is a **single page application** created under the **Model-view-controller (MVC) architectural design pattern**. Moreover, **html, css and java script (jquery)** have been used to create this. **Local storage** has been used to save data here.
- GitHub Link-https://github.com/Maleen-Ashinshana/One_Page_Web_Pos_System.git

Front End

- HTML
- CSS
- Java Script
- Bootstrap
- jQuery
- React

Framework and Library

Front End

- React
- Bootstrap
- Javafx
- Tailwind CSS

Back End

- Spring Boot
- Spring
- Hibernate
- Node Js
- Java EE

Version Control

- Git/Git Hub

API Testing

- Postman

Build Tools

- Maven
- Gradle

IDES

- IntelliJ
- VS Code
- NetBeans

Operating System

- Windows

Languages

- Sinhala
- English

● Connect 4 Game

- The AI component is developed **using the principles of OOP**, showcasing a structured and modular approach to designing intelligent systems.
- GitHub Link-<https://github.com/Maleen-Ashinshana/Connect-4-Game.git>

● Group Chat Application

- This chat application, which can be **connected to many users** at the same time, has been created using **JavaFX and JavaSocket**. It also has the ability to **send images**.
- GitHub Link-https://github.com/Maleen-Ashinshana/Chat_Application.git

● Hostel Management System

- It has been created using the **Hibernate framework** and the user **interface has been created using JavaFX and the mysql database has been used to store the data**.
- GitHub Link-https://github.com/Maleen-Ashinshana/ORM_Finale_Project_Hostel.git

● Cafe Management System(First Semester Final Project)

- This is a **Standalone Application** and the **user interface is made using JavaFX. MySQL is used for data storage**.
- GitHub Link-https://github.com/Maleen-Ashinshana/Cafe_Management_System.git

Education

● 2025

- Bachelor of Science (hons) in Computing University of **Gloucestershire (UK) (Pending)** Scheduled to be finished on 2025

● 2021-2023

- Graduate Diploma in Software Engineering (GDSE) **Institute of Software Engineering (IJSE)** From 1st of January 2021— Present

● 2008-2019

- G.C.E Ordinary Level 2019 **G/Poddiwala National School**
